

ATTN: FIREARMS TRAINING DIVISION

ATTEND AN ACTION TARGET FIREARMS INSTRUCTOR TRAINING SEMINAR

FT PIERCE, FL - INDIAN RIVER STATE COLLEGE - MARCH 3-4, 2010

“Modern Firearms Training and Shooting Range Development”

Because up-to-date training and education are vital to your success, we invite you to an intensive 2-day training event titled ***Modern Firearms Training and Shooting Range Development***.

This course will examine the challenges of today's firearms training requirements and shooting range management issues, and will present how modern shooting range equipment can help you meet those challenges safely and effectively. We will then move to the range for a day of live-fire training designed to demonstrate and reinforce the concepts discussed in the classroom.

YOUR TRAINING EXPERIENCE WILL INCLUDE:

- **12 Critical Elements of a Modern Firearms Training Program:** By examining the concepts listed below, we will establish what your firearms training program must include to be effective, safe, and defensible.
- **The Realities of Today's Gunfights:** We will review and analyze current law enforcement gunfight statistics, plus the physical and mental responses to combat stress. We will then determine how the results should shape your firearms training standards, practices, and policies.
- **Qualification vs. Training:** What are the differences? Learn why an understanding of these issues is so important, and why you do not have to settle for one or the other.
- **Legal and Financial Consequences of Inadequate Training:** We will present the court cases, decisions, and monetary awards that should shape your current training liability policy.
- **Shooting Range Design:** We will discuss critical issues relating to the planning and construction of indoor and outdoor shooting ranges. This discussion is applicable to not only new range projects, but to current range upgrades and expansion as well.
- **Shooting Range Equipment:** We will discuss how proper range equipment can help you meet the standards and goals presented throughout the day.
- **Putting It All Together:** The second day will be spent on the range with an Action Target Academy trainer. We will reinforce the classroom material through live fire exercises designed for real world application and success.
