

HOST AN ACTION TARGET SEMINAR

Thank you very much for your willingness to serve as a host agency, and congratulations on being selected. This packet will outline all the details that must be addressed to ensure the success of the event, so please read everything very carefully.

This 1-day seminar will examine the many challenges of today's firearms training requirements and shooting range management issues, and will present how modern shooting range development can help you meet those challenges safely, efficiently, and effectively. The experience will incorporate a classroom presentation and live-fire range training designed to demonstrate and reinforce the concepts discussed in the classroom.

WHAT WE NEED FROM A HOST AGENCY:

- * A single contact person we can coordinate everything through.
- * Classroom space and enough tables and chairs for 30 people. The room needs to have some sort of screen we can project a PowerPoint presentation on. If you already have a projection system, all the better.
- * An established range that can handle at least 10 shooters at a time. The ideal range should have a variety of Action Target automated equipment. We will send in whatever cardboard targets are required, but we ask that you provide sufficient water and shade.
- * Names and phone numbers of 2 or 3 nearby hotels the attendees can contact.
- * Help with receiving shipments. (targets, course materials, participant ammo, etc.)
- * Help with assembling portable targets
- * Advertising - We will advertise the course by broadcast fax to the state of the host agency and other surrounding states. We ask that you also distribute the provided course invitation materials through your local channels. All registrations and payments will be processed through Action Target.

WHAT YOU GET IN RETURN:

- * Up to 3 free slots in the seminar.

This is a great opportunity to show off your range, and benefit of some excellent training. Thank you very much for your consideration, and we hope to put something together soon!

Rick Matthews
