

TACTICAL SHOTGUN TRAINING

Duration: 2 days

Price: \$345

Objectives: The shotgun is the most effective close quarter self-defense tool available to armed professionals. Whether pump action or semi auto, no other firearm has the versatility and potential power of the shotgun. Learn how to fire it without pain and suffering, and how to extend its capability from contact distance to its maximum effective range, including less than lethal options.

Topics Covered:

- Multiple uses of the shotgun
- Semiautomatic vs. pump action
- Assembly and disassembly of the police shotgun, both semiautomatic and pump
- Nomenclature and maintenance
- Proper fitting
- Function check and cycle of operation
- Choke options, advantages / disadvantages
- Additional accessories and optional equipment
- Ammunition
- Less than lethal options
- Sling techniques
- Administrative loading and unloading
- Tactical reloading
- Stoppage clearing
- Transition techniques
- Unique shooting techniques
- Multiple threat, multiple shot applications
- Shooting while moving
- Engaging moving threats
- Ground fighting
- Quarter shooting
- Final evaluation

Student Requirements and/or Prerequisites:

- Proof of current law enforcement, military or private security status
- Hard shell ear protection that meets OSHA Noise Reduction Rating 29 (double hearing protection, plugs and muffs, recommended)
- Eye protection that is shatter resistant and wrap around
- All equipment required for course
