

PAST PERFORMANCE PROJECTS

**PROJECT NAME
AND LOCATION:**

Camp Stanley
Live Fire Shoothouse and Indoor Range
Camp Stanley, TX

PROJECT SCOPE:

A TC25-8 design shoot house, building enclosure, ventilation system, and AAR facility were provided in addition to a 200 Meter enclosed range and bullet trap.

PROJECT DETAILS:

The shoothouse can be removed from its enclosure and is fully deployable. It has a zero SDZ horizontally and vertically. It is fully ventilated and has met all federal and state requirements for air quality.

This building uses the Action Target MATCH technology.
