

PAST PERFORMANCE PROJECTS

PROJECT NAME AND LOCATION: **Dover Air Force Base
CATAM Range Project
Delaware**

PROJECT SCOPE:

Action Target performed the ballistic design of the facility in conjunction with a Washington DC design firm. The ballistic design included the bullet traps and the safety baffle systems. Action Target designed the bullet traps and ballistic baffle systems, manufactured the components, and installed all of the bullet traps, safety baffles, and targetry systems.

The ranges were equipped with turning and moving targets, plus the Action Target steel Total Containment Trap as a bullet backstop and containment system. A dust collection unit and a conveyor system were included with the Total Containment Trap to control lead dust and to collect and recover spent rounds.

OUR ROLE:

Action Target served as an industry SME during the design process, and was a successful bidder and subcontractor. We designed, built, and installed the live-fire range equipment, bullet trap, and other ballistic safety components.

WORK SUBCONTRACTED TO OTHERS:

N/A

SUBCONTRACT AMOUNT:

At award: Final Cost:
Reason for cost growth: N/A

APPLICABLE DATES:

Scheduled Completion: Spring 1999
Actual Completion: Spring 1999
Reason for time growth: N/A

PERFORMANCE EVALUATION BY PROJECT OWNER:

Excellent

PERFORMANCE EVALUATION BY PRIME CONTRACTOR:

Excellent
