A portable and durable armor steel target for everyone who loves shooting! The PT Practice Target is the best thing to happen to shooting in a very long time. The portable stand folds to less than 3 feet long in just seconds, so it easily fits in the trunk of even the smallest car. The target head is made of AR550 armor steel so you can shoot it with anything from .22 rimfire to .44 magnum or .45 ACP with no damage at all.

The beauty of a steel target is that you don't have to waste time changing paper or putting out new tin cans. The head of the Evil Roy Target will "bounce" a little when you hit it, so you get instant positive feedback.

Handgun: AR500 or AR550 / 10 yards+

Rifle: AR550 / 100 yards+ / below 3,000 fps

"Shooting on steel targets is the most effective and most efficient way to practice, regardless of your experience or skill level. I use this new design from Action Target for my own practice sessions because it gives me a perfect training tool to prepare myself for matches throughout the year. I also use these targets in all my shooting schools because they are easy to transport, they are safe, and they last."
