

# PORTABLE TARGETS

## **.22 SPORT DUELING TREE™**

**ULTIMATE .22 RIMFIRE SHOOTING  
FUN FOR EVERYONE!**

- High quality through-hardened steel
- Free standing
- Easily portable
- Simple assembly
- No welds
- Great price
- Tons of fun

### **How Does It Work?**

Two shooters begin, each with three of the six target paddles on their side of the tree. At the start command, each shooter tries to hit the target paddles that are on his side. When a paddle is hit, it swings over to the other guy's side. Trouble is, the other guy is knocking them back over to your side at the same time. The first shooter with all the paddles resting on his side loses. (and pays for dinner!)

### **Rugged Yet Easy To Use**

The Dueling Tree is 38 inches tall and weighs 35 pounds. The target paddles are made of through hardened AR500 armor steel, so they will last a lifetime. It comes with its own support base so you don't have to pound anything into the ground. Just set it down and start shooting!

The .22 Sport Dueling Tree allows you to shoot more often and have more fun while you shoot. The low cost of .22 rimfire ammunition and the immediate gratification of seeing your hits on the steel plates will provide you with a lifetime of shooting enjoyment.
