

# BULLET TRAPS

## CLEARING TRAPS

- Safely check handguns or long guns
- Retrieve bullets whole if necessary
- Stand alone or tabletop models
- Attractive, heavy-duty designs

Dry firing a gun is often necessary to check its status and insure all rounds have been removed. Our double walled Clearing Trap makes this a safe and simple process. The trap may be used to check handguns and rifles (up to .223 & .308), with complete confidence that the trap's armored steel chamber filled with composite rubber will safely contain any unexpected shots fired. The Action Target Clearing Trap is perfect for shooting ranges, locker rooms, armories, gunsmiths, and correctional facilities.

Other clearing traps are available on the market, but at prices much higher than they need to be. The Action Target Clearing Trap costs less, but the lower price does not reflect the trap's quality because it is made of the finest steel and it is designed to meet our strictest standards. Rather, it reflects on Action Target's desire to provide a valuable service and give something back to the law enforcement community.
