

## PT HOLD PLUS™

- Stable platform
- Simple assembly
- Easy to pick up and move
- No wood or staples required
- Works with any target size
- Ideal for tactical training scenarios

The PT Hold Plus™ also holds your cardboard targets and target backers simply and reliably, but it does so without the need for wood or staples. We use a target clamp similar to the one found on the PT Swinger™ and the PT Drop-Turn™ to grab the cardboard directly and not let go.

Because the PT Hold Plus™ mounts to the top of a standard PT Stand, you can mount your targets at different heights to increase the realism of your training scenarios.

Base:	24" L x 24" W
Stand:	1, 2, 3, or 4 feet high
Head:	Cardboard target
Weight:	30-50 lbs.
Handgun:	Cardboard target
Rifle:	Cardboard target
