

PORTABLE TARGETS

PT DUELING TREE™

U.S. PATENTS 6994348 & 6994349

- Reactive back and forth dueling action
- Through hardened AR500 steel (550 available)
- No-weld target plates
- Leans forward to control splatter
- Gravity reset
- Great stress inducer

Two shooters begin, each with three targets on their side of the tree. At the start command, they fire at the targets on their respective sides.

When a target is hit, it swings over to the opposite side. Trouble is, the other guy is knocking them back over to your side at the same time. The first one with all the targets resting on his side loses. Forget the white gloves and 20 paces because this duel is in your face. If you miss, you lose. If you don't reload fast enough to keep up, you lose. No excuses.

Six target paddles, gravity reset, and a splatter reducing design combine to make this the best dueling tree ever made.

NOTE: The stand and feet are not made of armor steel and may be vulnerable to damage from high power rifle rounds.
