SUPERIOR FIREARMS TRAINING ON PORTABLE TARGETS

Because Action Target strongly believes that up-to-date training and education are extremely vital aspects of your job, we invite you to be our guest at a powerful one day seminar titled **SUPERIOR FIREARMS TRAINING ON PORTABLE TARGETS**.

This seminar will examine how the many challenges of modern firearms training can be met, even by departments with extremely tight budgets. You will experience first hand how simple, portable targets can be used by any department on any range to elevate practical firearms training to dramatic new levels.

YOUR TRAINING EXPERIENCE WILL INCLUDE:

- **LIVE-FIRE TRAINING WITH PORTABLE TARGETS:** You will experience our full line of portable targets in scenarios that will test and elevate your combat shooting skills. You will also see how portable targets can be used to teach everything from basic marksmanship to advanced combat tactics.
- **DESIGNING JOB-RELEVANT FIREARMS TRAINING SCENARIOS:** You will fight the same way you train, so make sure your training is realistic enough to prepare you for the real thing.
- **QUALIFICATION VS. TRAINING:** Are there differences between the two? What are they? Learn why an understanding of these issues is so important, and why you don't have to settle for one or the other.
- **THE REALITIES OF TODAY'S GUNFIGHTS:** We will review and analyze current law enforcement gunfight statistics, and then determine how the results should shape your firearms training standards and practices.
- **12 CRITICAL ELEMENTS OF A MODERN FIREARMS TRAINING PROGRAM:** We will examine what you should be doing, why you should be doing it, and how to get started if you're not doing it already.
- **PHYSIOLOGICAL RESPONSES TO COMBAT STRESS:** How will your body react in a combat situation? How should these natural responses impact your training programs and shooting range policies
