

# ACTION TARGET HEADQUARTERS

PROVO, UTAH

Action Target has been providing unique and innovative shooting range solutions since its inception in 1986. What began as a few innovators fulfilling a need for a local law enforcement agency has evolved into a world-wide industry leading corporation serving the needs of law enforcement, military and commercial organizations.

Action Target's unique start-to-finish approach ensures each step of the process is handled by in-house professionals with years of expertise and industry knowledge. From initial range designs to product development and manufacturing, everything is done on-site at our facility. Action Target designs, manufactures and installs turnkey and custom shooting ranges, tactical combat houses and portable steel targets. No matter your shooting range needs, Action Target provides solutions to keep you better prepared for whatever lies ahead.

# THE ACTION TARGET ADVANTAGE

## CONSULT

Our knowledgeable range consultants guide you through each step of the process.

## DESIGN

Our range design and drafting teams turn your ideas into a range that fits your needs.

## ENGINEER

Our team ensures products are compliant with engineering standards and are built to last.

## MANUFACTURE

Products are precisely manufactured on-site in our 125,000 square foot facility.

## INSTALL

Our experienced and certified install teams work quickly to make your range operational.

## SERVICE

Once your range opens, our service and maintenance team is there to keep it running.

## SUPPLY

Our range supply programs have everything for your day-to-day range needs.

## TRAIN

We provide training to help you get the most out of your equipment and certify your range staff.

# BULLET TRAPS

## DURABLE

Patented ballistic designs ensures that our traps can handle millions of handgun, shotgun, and rifle rounds.

## SAFE & CLEAN

Collect lead fragments and dust for recycling, and keep them from impacting ground, waterways, and air.

## MODULAR

Components fit through standard doors and can be expanded to fit almost any range design.

## FIRE RESISTANT

Optional rubber berm treatment is Class A ASTM E108-11 compliant, the best rating on the market.

## TACTICAL

Allow for close-range and cross-lane tactical training.

## STRUCTURAL

Engineered to the highest standards. Structural stamps are provided upon request.

Total Containment Trap™

Rubber Berm Trap

Rubber Block Wall

# SHOOTING STALLS

## MODULAR

Interchangeable components allow for future upgrades and complete customization.

## CUSTOMIZABLE

Multiple colors, ballistic panels, accessories, and table configurations are available.

## BALLISTIC

Independent UL 752 and EN 1063 tests validate ballistic integrity of panels.

## SERVICEABLE

Modular components enable easy maintenance and replacement as parts wear.

## VERSATILE

Tactical carts, pivot tables, and dimmable lights allow for versatile use and training.

Citadel™

American Series™

Defender™

Sentry™

Guardsman™

# TARGET RETRIEVERS

## WIRELESS

Genesis and Pilot run without the use of cable or bus bars.

## ENGAGING

Preloaded programs and drills and easy-to-use interfaces keep shooters in your range.

## 360° TURNING

Targets can move with a full range of motion including spinning, random edging, and teasing.

## FAST

Retrievers are capable of traveling up to 15 feet per second.

## ACCURATE

Targets position within 1/2 inch of the desired distance.

## DURABLE

Systems are specifically designed to withstand the abusive conditions inside a range.

Genesis™

Pilot™

SRET

# TURNING TARGETS

## 360° TURNING

Targets can turn 90, 180, and 360 degrees in the blink of an eye.

## QUIET

Systems with electric motors operate quietly, preventing shooters from anticipating movement.

## BALLISTIC

Ballistic shields, clamps, and/or downriggers are built using AR500 steel to resist bullet damage.

## CONNECTED

Systems integrate with our range control software for advanced features and functionality.

## INDEPENDENT

Targets may be controlled individually or simultaneously.

## OUTDOOR RATED

Systems can be used both indoor and outdoor in upright or inverted configurations.

Fixed Lateral 360™

Fixed Turning Target Stand

D-TaPS™

Power 90™

# RUNNING MAN TARGETS

## FAST

Targets accelerate quickly and move up to speeds as fast as the fastest sprinters in the world.

## INDEPENDENT

Targets may be controlled individually or simultaneously.

## CONNECTED

Systems can be controlled with central range control and on nearly any Wi-Fi enabled device.

## POWERFUL

Heavy duty induction motors are strong enough to carry heavy targets.

## MODULAR

Track lengths can vary from 25-200 feet and can be installed upright or inverted.

## OUTDOOR RATED

Able to be used in both indoor and outdoor conditions and most climates.

DRM Pro™ Upright

DRM Pro™ Inverted

# REACTIVE TARGETS

## POP-UP ACTION

Targets raise when actuated and are knocked down by accurate shots.

## INDEPENDENT

Individual target control allows for random target actuation for decision-making training.

## BALLISTIC

Entire face of system is constructed of ballistic steel, allowing hits on chest and head plates.

Hit Sensing Targets

Auto Popper

Bobber Targets

Steel KD

# VENTILATION

## CLEAN

Range air is cleaned from lead dust before being reintroduced to the range or released back into the atmosphere.

## AIR FLOW

Downrange air flow keeps the range comfortable by moving particulates away from the shooter's respiratory zone.

## CLIMATE CONTROL

Systems adapt to changing environmental conditions to maintain required air speed and pressure conditions.

Purge System

Recirculating System

Filters

# SAFETY BAFFLES

## CONFIGURABLE

Baffles are laid out to ensure complete coverage whether your range will have a fixed firing line or full tactical capability.

## SAFE

An innovative combination of steel, wood, and acoustical tile ensure errant bullets can't escape the range.

## ACOUSTICAL

Both ceiling and wall baffles can be customized with a variety of acoustical fascia options, making the range more comfortable for users and giving it a clean, finished look.

ShieldPro™ Ceiling Baffles

CombatShield™ Wall Baffles

Wall Deflectors

IronShield™ Sliding Door

# SHOOT HOUSES

## MODULAR

Shoot houses utilize interchangeable parts and accessories to create limitless room and building configurations.

## ROBUST

Designed to stand up to live fire (MATCH™) and simulated ammunition. Perfect for training indoors and outdoors in any flat, open space.

## REALISTIC

Enhance training with houses and villages of any size and layout. Rooms can include closets, balconies, hidden areas, and more.

MATCH™

TAC House™

Portable Bullet Trap

# RANGE MANAGEMENT SYSTEMS

## MANAGE LANES

Enter shooter's names, assign unique permissions, and designate lane time limits.

## PERMISSIONS

Create user profiles and assign access to programs, lighting control, and equipment features.

## PROGRAMS

Build dynamic programs with set or random exposure time, edge time, and cycle count.

## LIGHTING

Manage stall and target lighting from one central location.

## TIMED DRILLS

Set target exposure times, cycle counts, and retriever speed for training or qualifications.

## CONNECTED

Access analytics, remote troubleshooting, system improvements, and content updates.

## HVAC

Optimize heating, cooling, and safe removal of smoke from your range. Monitor the health of your air filters.

## POS

Integrate with your range's POS system to streamline lane time management, and equipment purchases and rentals.

SmartRange™ &  
SmartRange AXIS™
