# Your Passion, Your Vision

# *Your Range*

## Designed to Perform the Way You Shoot

Your range is more than a collection of lanes and targets, it's where precision meets purpose. Whether you're building for a public facility, a private range, or a mission-driven training environment, every detail matters. With Action Target, you gain more than equipment, you gain a partner dedicated to bringing your vision to life. From design consultation and custom layouts to advanced target systems and safety solutions, we tailor every element to your goals.

# American Series

## Unrivaled Customization

American Series™ stalls combine dependable protection with flexible surface options to match your environment and brand. The deeper footprint enhances privacy, supports customizable accessories, and streamlines lane flow across your range.

# Style Features

---

## Customizable

Choose from a selection of standard variations or tailor nearly every component, color, and material to your style.

## Low Maintenance

A variety of tile, rugged steel, and plastic skins prevent accumulation of lead, oil, and carbon for easy cleaning.

## Privacy & Comfort

Deep, floor-to-ceiling walls and an integrated muzzle blast barrier with acoustic treatment enhance shooter comfort.

## Ballistic

Independent UL 752 and EN 1063 tests, industry standard benchmarks, validate ballistic integrity.

# Customization

---

## Color Palettes

Pick a look, then choose materials to set color and texture. Non-porous options include tile, rugged steel, plastic skins, and acoustic material. Add customizable LED base lighting along the stall's bottom edge to illuminate lanes for a sophisticated look.

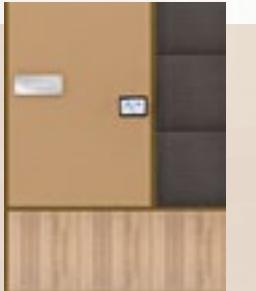

### Manhattan

Cool contrast with various plastic skins and acoustic paneling for a crisp, technical feel.

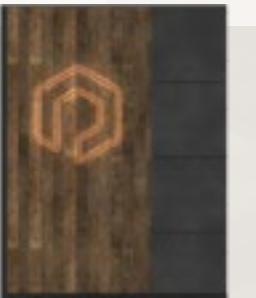

### Craftsman

Warm neutrals—wood, plastic skin, and acoustic paneling for a classic style.

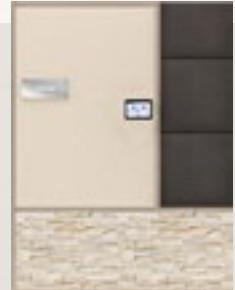

### Custom

Make it your own—select colors, materials, and signage to best match your style.

### Rustic

Earth tones using plastic skins and tile surfaces for a grounded, hard-wearing look.

### Onyx

Monochrome black executed with rugged steel and tile for a dramatic, low-glare setup.

# Accessories

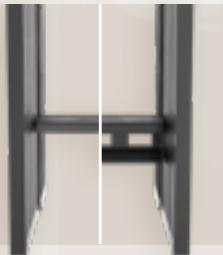

## Tables

Choose from a variety of table options to match your lane and shooting style, for a seamless fit and finish, giving you the flexibility to create a setup that perfectly complements your range.

### Fixed

Rock-steady for zeroing, with a durable solid surface when guests lean or load gear.

Optional Shelf Add-on

### Tactical Cart

A mobile work surface with storage that moves up- or downrange, and connects at the stalls firing line.

Optional Shelf Add-on

### Electric Lift Table

Enables quick, push-button height change to accommodate various shooters and positions.

Standard Table | Rifle Table

### Swing Up

Rotates up to clear in seconds, opening the lane for down range movement or maintenance.

Pneumatic Ease Closure

### Rifle Table

Extra depth and load capacity for bipods, bags, and long-action setups.

Optional Shelf Add-on

A

## Other Accessories

Integrated and modular accessories reduce distractions, organize gear, and improve comfort—enhancing shooters' overall range experience.

### Brass Deflector

**B** Keeps spent casings out of adjacent lanes.

Standard Integrated Feature

### Muzzle Barrier

**C** Reduces blast effect on other lanes and shooters.

Standard Integrated Feature

### Rifle Rack

**D** Keeps gun within reach and pointed downrange.

Optional Add-on

# Sentry Series

## Enhanced Performance, Customized Design

The Sentry™ Series Shooting Stall delivers superior safety, comfort, and functionality for shooters of every level. With Standard and Deluxe configurations, it's built to enhance your range environment through dependable protection and customizable design.

# Style Features

---

## Personalized Theme

Whatever you envision, we'll build. Colors, materials, and graphics can be customized to match your singular taste.

## Tailored Design

Our team custom-specs the stall layout and accessories to optimize your space and shooting style.

## Ballistic Protection

Independent UL 752 and EN 1063 tests, industry standard benchmarks, validate ballistic integrity.

## Improved Experience

Optional lighting, sound control, and a self-closing gate create a quieter, more personalized shooting experience.

# *Stall Variants*

## **Sentry™**

Built for reliability and versatility, the Sentry™ Stall delivers proven ballistic protection, sound abatement, and customizable options to fit any range design.

### **Single-Wall**

This opaque ABS plastic is long-life and low-maintenance. It gives shooters the ultimate level of privacy.

See Pages 16-21 for Available Customization Options

## **Sentry™ Deluxe**

Features a deeper footprint that enhances shooter privacy, comfort, and customization possibilities with the same trusted protection and performance.

### **Double-Wall**

Constructed from durable ABS panels, this option offers maximum privacy and noise control for an enhanced shooting experience.

See Pages 16-21 for Available Customization Options

## **Sentry Prestige™**

Built on the proven Sentry framework, Prestige adds premium surface choices and brand-forward details — custom fascia materials, tiles, graphics, colors, and lighting — matched to your space.

### **Fully Customized**

Want something truly one-of-a-kind? Ask us about Sentry Prestige today, and we'll assist you in turning your unique vision into reality.

Available for Sentry & Sentry Deluxe Configurations

## Panel Materials

Whether you want to prioritize privacy or visibility, subtlety or flashiness, we will make your Defender stalls exactly how you want them. All of our panel materials are ballistically rated, so you can enjoy your customized stalls with peace of mind.

### ABS

This opaque ABS plastic is long-life and low-maintenance. Add laser-cut stainless steel decoration for an extra flair.

Customize Color and Decoration

### Frosted Glass

Take your stall to the next level. Frosted glass allows you to prominently display your logo or custom artwork.

Front Panel, Rear Panel, or Both

### Accent LEDs

Edge-mounted LEDs trace the glass, illuminating the stall and letting you match your ambiance, or create a signature look.

Combine with Any Glass Option

### Clear Glass

Clear ballistic glass provides reliable protection while maintaining an open, connected range environment.

Front Panel, Rear Panel, or Both

### Printed Glass

Show your taste with full-color artwork or patterns. Printed glass maintains its ballistic rating and easy-clean durability.

Front Panel, Rear Panel, or Both

### Acoustic Fascia

Reduce sound reverberation in style with a variety of durable, cleanable acoustic materials. Custom patterns and colors are available.

Customizable PEPP, Rubber, and Wood Wool

# Customization

---

## Color Palettes

Choose a palette that fits your environment and how you operate. Each color scheme applies across panels, trims, and tables for a cohesive look. Finishes are durable, low-maintenance, and built to withstand daily use.

### Slate

Balanced contrast with a modern, technical feel—versatile in any layout.

### Ghost

Light, airy tones that brighten the lane and make compact rooms feel larger.

### Blackout

A dramatic, low-glare look that hides wear and keeps focus downrange.

### True Blue

A confident accent that adds energy without overwhelming the room.

### Mocha

Warm, earthy tones that soften the space and play well with natural textures.

### Custom

Select colors, finishes, and graphics to create a one-off stall that's unmistakably yours.

# Accessories

## Tables

Choose from a variety of table options to match your lane and shooting style, for a seamless fit and finish, giving you the flexibility to create a setup that perfectly complements your range.

### Fixed

Rock-steady for zeroing, with a durable solid surface when guests lean or load gear.

Optional Shelf Add-on

### Swing Up

Rotates up to clear in seconds, opening the lane for down range movement or maintenance.

Pneumatic Ease Closure

### Tactical Cart

A mobile work surface with storage that moves up- or downrange, and connects at the stalls firing line.

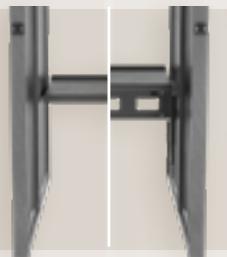

Optional Shelf Add-on

### Brass Deflector

**B** Keeps spent casings out of adjacent lanes.

Standard Feature

### Muzzle Barrier

**C** Reduces blast effect on other lanes and shooters.

Optional Add-on

### Apparel Hook

**D** Keeps personal items accessible and off the table.

Customizable Color

# Defender

## The Standard in Modular Customization

Engineered with high-grade ballistic components and durable finishes, the Defender™ Stall elevates safety without sacrificing design. Custom options let you match your range's layout, brand, and performance goals.

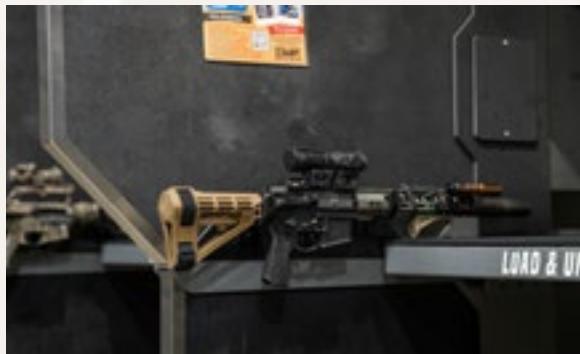

# Style Features

---

## Modular

Interchangeable ballistic panels and attachable accessories make future upgrades and service fast and cost-effective.

## Customizable

Select colors, glass or steel-core panels, and various table types to match your unique vision and shooting style.

## Ballistic

Independent UL 752 and EN 1063 tests, industry standard benchmarks, validate ballistic integrity.

## Modern Design

Defender's clean, modern profile elevates ranges. Its distinct profile highlights your logo and brand.

## Custom Glass

This process allows you to display full color graphics or logos to create a one-of-a-kind look across your range.

# Customization

Custom Colors Available

# Genesis

## A New Era in Shooting Range Technology

The Genesis target retriever is the most entertaining and engaging target retriever on the market. It brings wireless control and modern connectivity to your range, delivering smooth runs and simple, reliable operation.

GENESIS

DYNAMIC COURSE

TIME AND ACCURACY  
TRAINING DRILLS

# Features

## Wireless Control

Send targets, start drills, and manage sessions all from a single, user-friendly interface.

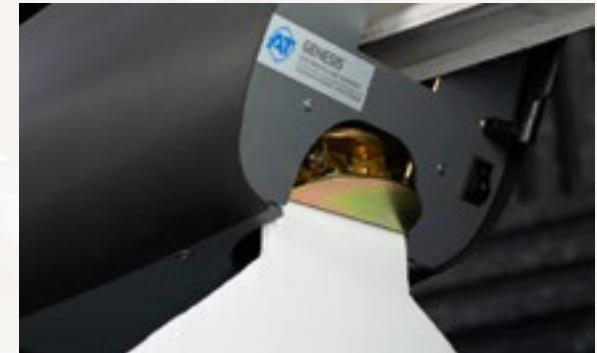

## Strike Watch™

Detects carrier hits and automatically initiates a cease-fire protocol to protect your system.

## 360° Hidden Clamp

A concealed, 360° turning clamp presents target face/edge on command without the risk of damage.

## Engaging

Preloaded games and trainer-built drills keep shooters of any level challenged and entertained.

## Target Camera

An optional onboard camera shows the downrange target in real time on the control interface improving shot feedback.

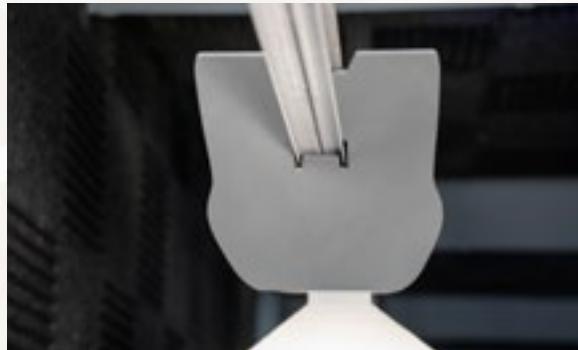

## Target & Dock Lighting

Color-adjustable retriever lights targets and dock lighting illuminates the stall and shows status at a glance.

## Ballistic Construction

3/8" AR500 steel deflector plate up front, with 11-gauge steel on the sides for added durability.

## Remote Troubleshooting

Connected through SmartRange AXIS for over-the-air content updates, on-the-fly diagnostics, and fast support.

# Customization

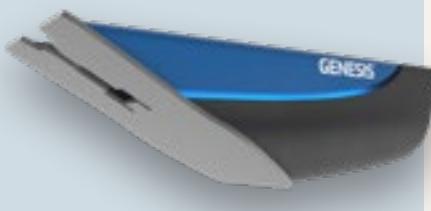

---

## Color Palettes

Pick a look that works with your stall and the space it lives in. Genesis finishes and lighting cues work together so the retriever feels integrated with the lane.

### True Blue

A bold, high-contrast finish that reads clean and modern.

### Blackout

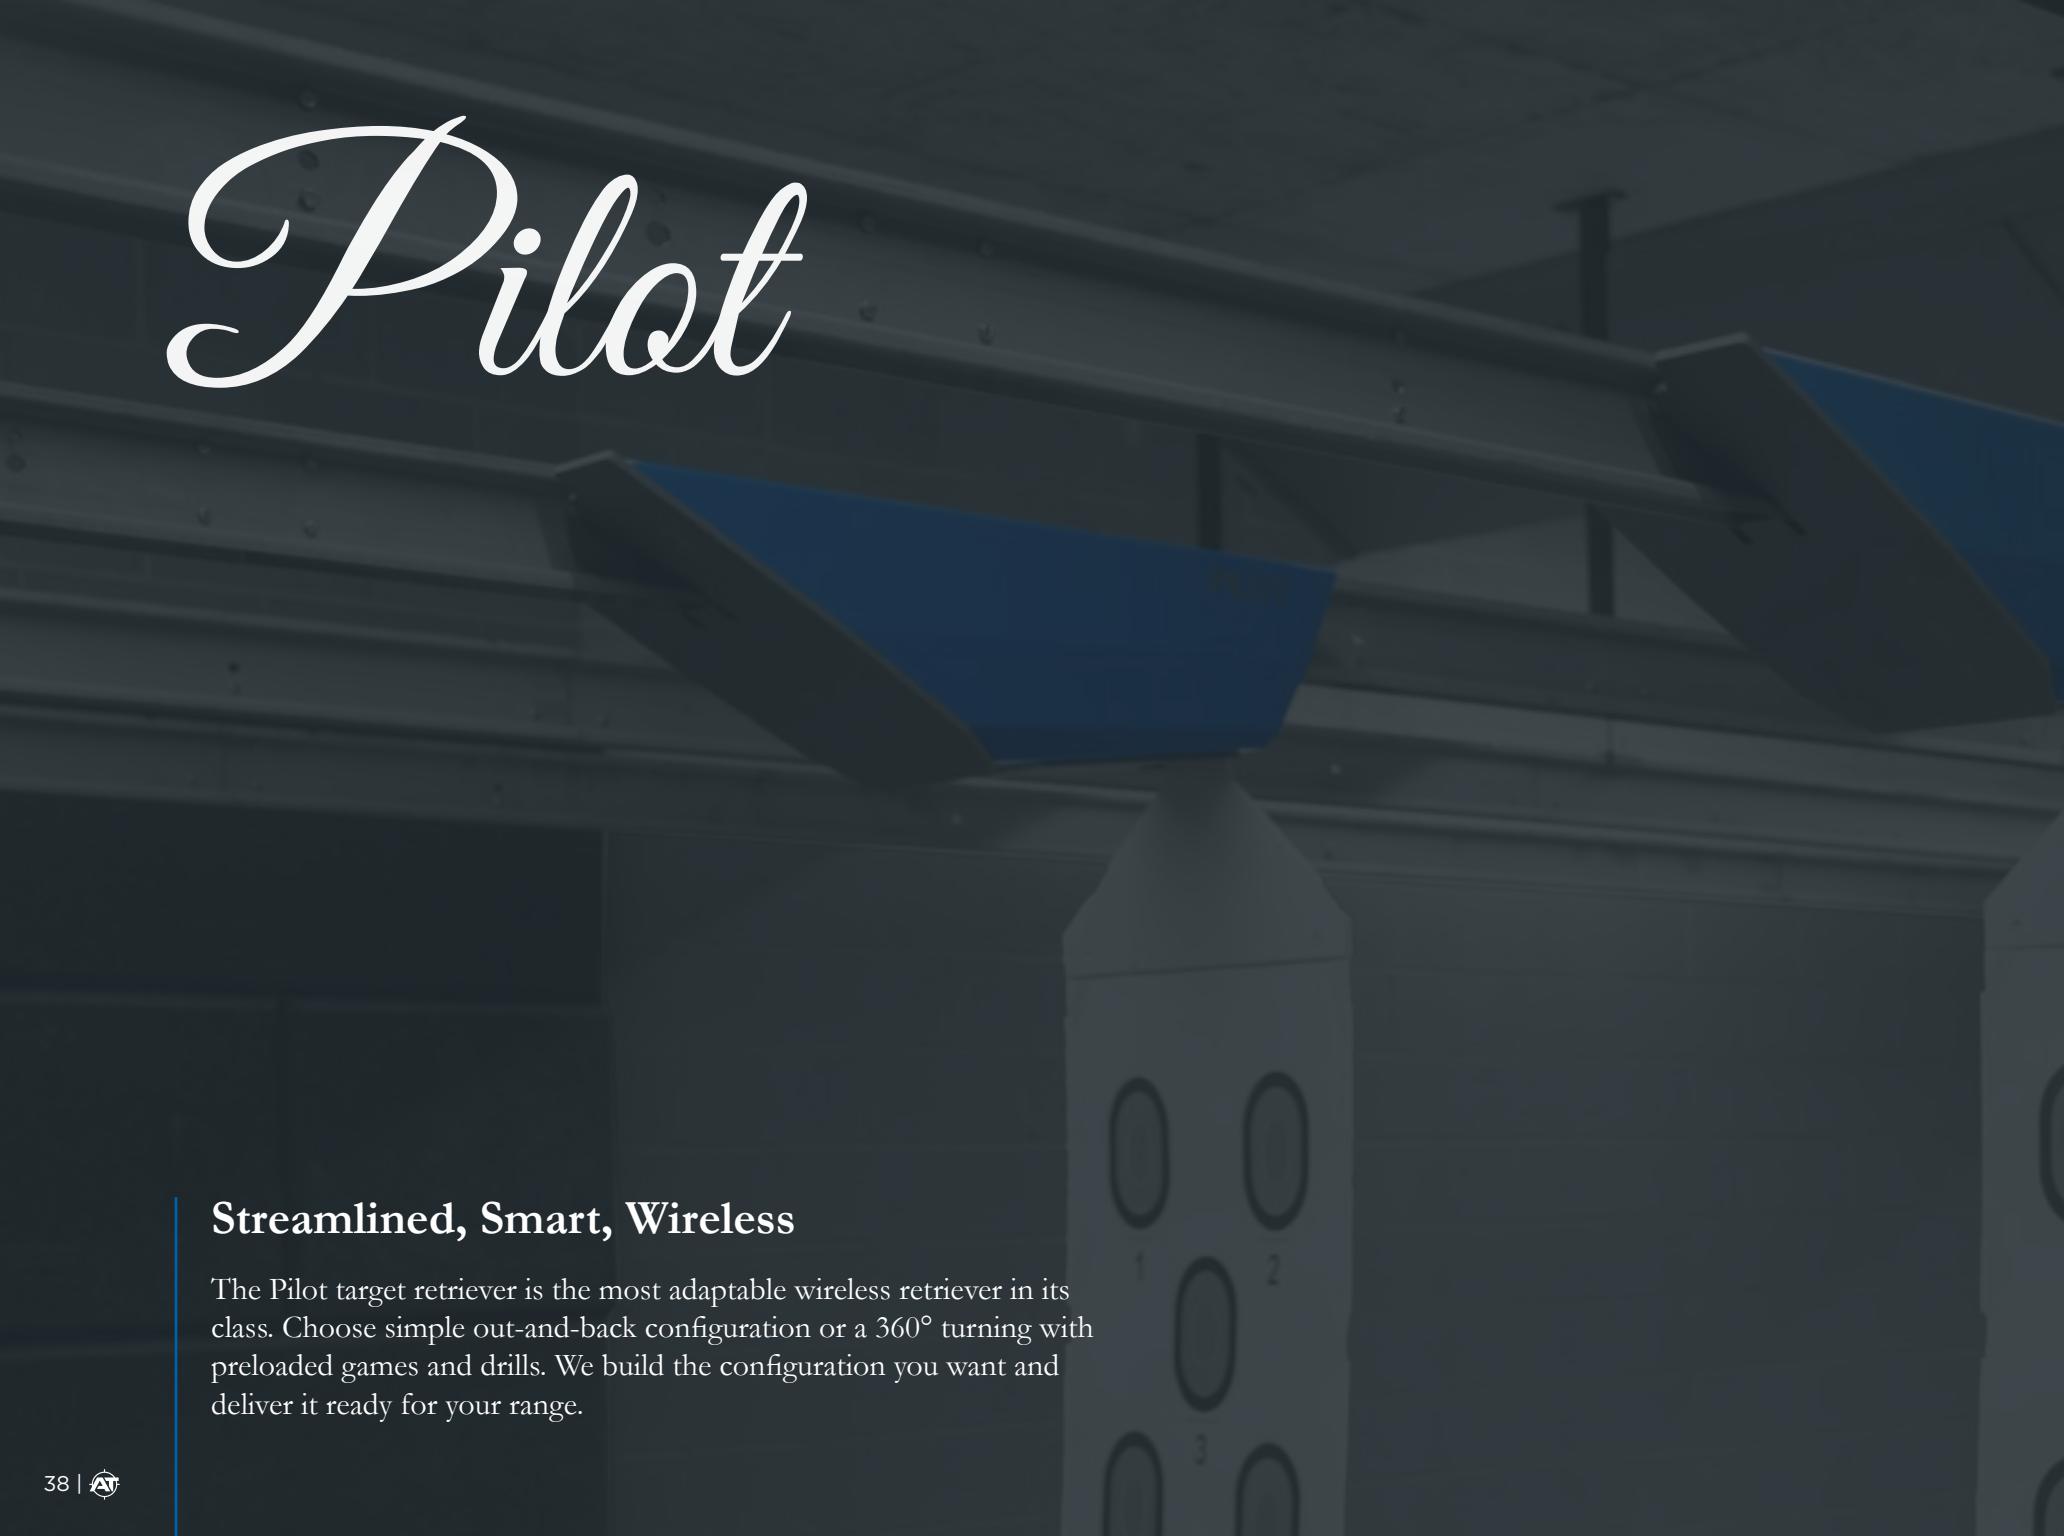

Stealthy and low-glare with a satin, all-black finish.

A close-up, low-angle shot of a Genesis car badge. The badge is rectangular with a dark background and the word "GENESIS" in a bold, white, sans-serif font. The badge is mounted on a dark, curved surface, likely the side of a car. The lighting is dramatic, with bright highlights along the top edge and on the letters, while the rest of the badge and the background are in deep shadow. The badge is positioned in the upper left quadrant of the frame.

GENESIS

# Pilot

## Streamlined, Smart, Wireless

The Pilot target retriever is the most adaptable wireless retriever in its class. Choose simple out-and-back configuration or a 360° turning with preloaded games and drills. We build the configuration you want and deliver it ready for your range.

# Features

## Wireless Control

Send targets, start drills, and manage sessions all from a single, user-friendly interface via SmartRange AXIS™.

## Strike Watch™

Detects carrier hits and automatically initiates a cease-fire protocol to protect your system.

## Hidden Clamp

A concealed, optional, 360° turning clamp presents target face/edge on command without the risk of damage.

## Engaging

Preloaded games and trainer-built drills keep shooters of any level challenged and entertained.

## Target Camera

An optional onboard camera shows the downrange target in real time on the control interface improving shot feedback.

## Ballistic Construction

3/8" AR500 steel deflector plate up front, with 11-gauge steel on the sides for added durability.

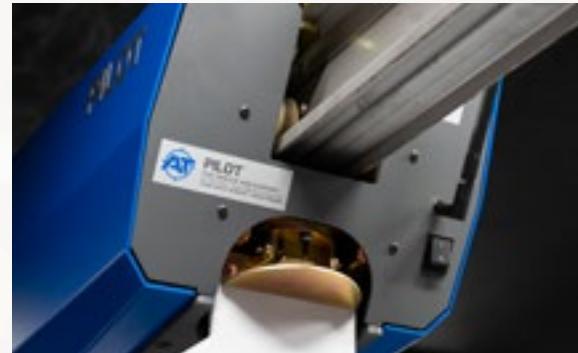

## Target Lighting

Color-adjustable target lighting brightens the hitzones, improves downrange visibility, and helps shot-to-shot feedback.

## Remote Troubleshooting

Connected through SmartRange AXIS for over-the-air content updates, on-the-fly diagnostics, and fast support.

# Customization

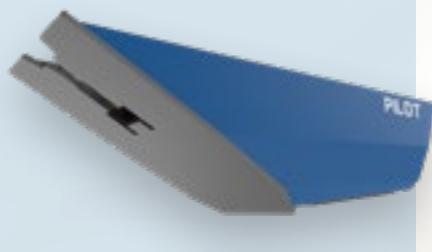

---

## Color Palettes

Pick a look that works with your stall and the space it lives in. Pilot finishes and lighting cues work together so the retriever feels integrated with the lane.

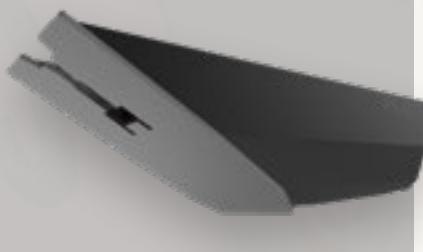

### True Blue

This is our signature look—clean, modern, and instantly recognizable.

### Blackout

Stealthy and low-glare with a satin, all-black finish.

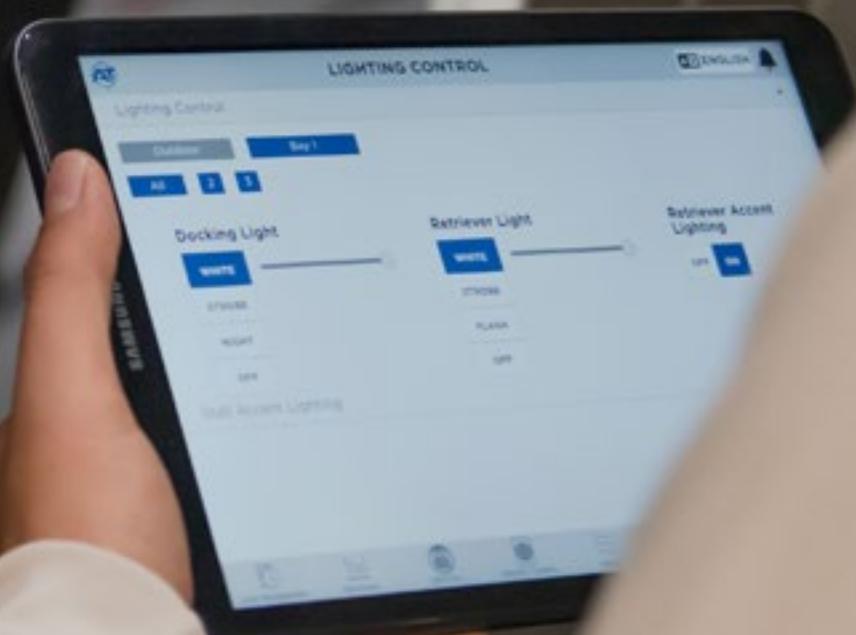

# *Range Management*

## **Expanded Range Control**

Range control is key to a safe and enjoyable shooting range. Action Target provides a full range of solutions from simple handheld controllers to advanced, fully integrated command centers, providing complete control over your range environment.

# Range Controls

SmartRange **AXIS**<sup>™</sup>

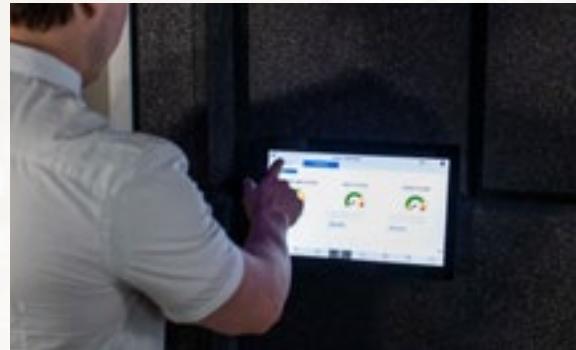

## Lane Management

Assign lanes to shooters by name, with assigned unique permissions and designated lane time limits.

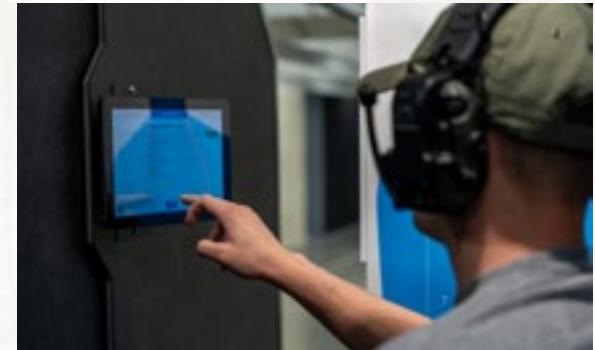

## Full Control

A central control interface for all range operations, supporting system expansions as your range evolves.

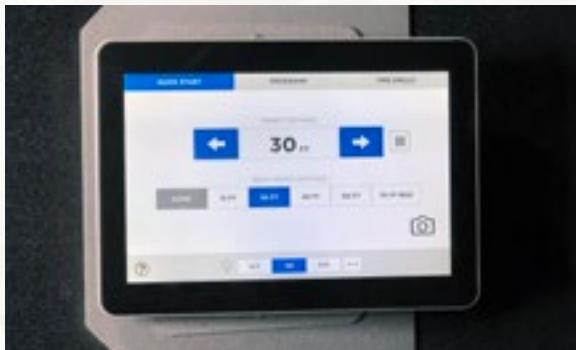

## Programs & Drills

Control exposure time, edge time, and cycle count to create a challenging training session.

## Connected

Access remote troubleshooting, system improvements, and content updates via Action Target's service network.

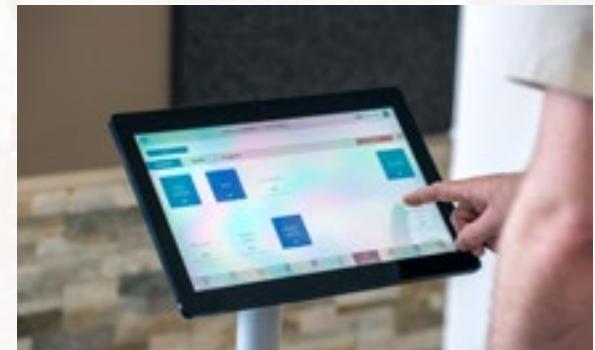

## POS Integration

Empower customers to make purchases within the shooting lane, minimizing down time and freeing up staff.

## FLEX Integration

Control connection options and monitor third-party systems including lighting, HVAC, sensors, and more.

# *Range Aesthetics*

## **Finish Your Range Your Way**

Elevate your environment with a wide array of customizable surfaces aligned to your brand and training goals. From staging area to downrange, we tailor finishes for a cohesive look that reflects your vision.

# Downrange

---

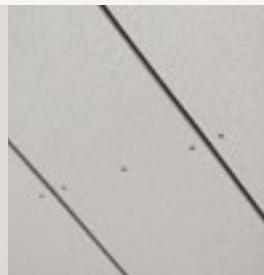

## Acoustic Fascia

Acoustic fascia are surface materials applied to ceiling and wall baffles that cut reverberation, improve comfort, and give the range a finished look. They're available in multiple materials and colors so you can align performance and design.

### Acoustic Ceiling Tile

Cost-effective panels with high sound reduction for ceilings—an easy way to quiet the line and refine the look.

White

### Wood Wool

Cement-bonded wood-fiber panels that effectively cut sound while adding a natural, textured aesthetic—durable, stable, and easy to finish.

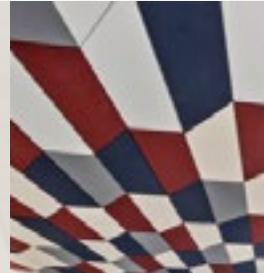

Custom Pattern/Logo Etching | Custom Colors

### Custom

Custom materials are available by request and can be integrated pending testing and approval to meet safety and performance standards.

Consultation By Request

### PEPP

Polyethylene planks offer a durable, attractive surface with strong sound reduction; choose beveled profiles for crisp shadow lines.

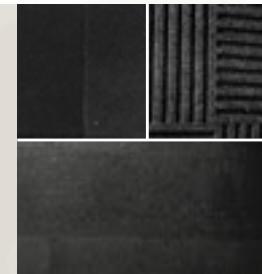

Flat | Beveled | Custom Pattern/Logo Etching

### SureStop™ Rubber

Dense rubber encapsulates rounds to prevent splash and ricochet, with acoustic options to cut reverberation—available as wall panels or blocks.

Flat | Ribbed | Blocks

# Staging Area

## Floor Finish

Durable surfaces built for heavy traffic, carts, and gear that are easy to clean. Supports wayfinding and branding so your staging area looks sharp and works hard.

### Concrete

Sealed, non-slip finish

Stained | Stamped Texture

### Faux Wood

Elevated wood-look style

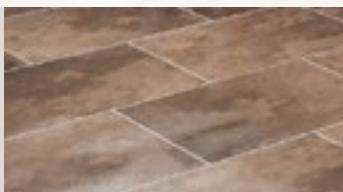

Custom Colors Available

### Ceramic Tile

Sleek, scuff-resistant finish

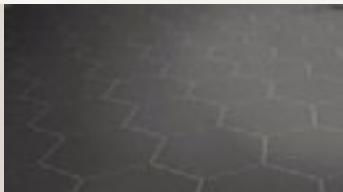

Custom Colors Available

### Custom

Tailored patterns and inlays

Consultation By Request

## Safety Ceiling

Overhead protection that manages hazards while integrating lighting, fire suppression, and signage cleanly. Acoustic treatment helps calm the space for clearer communication and comfort.

### Acoustic Tile

Cost-effective sound control

White | Black

### Wood Wool

Textured acoustic finish

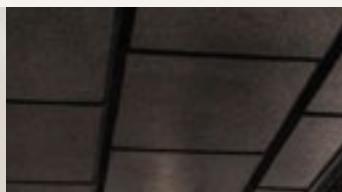

Custom Pattern/Logo Etching | Custom Colors

### PEPP

Impact-tough acoustic option

Flat | Beveled | Custom Pattern/Logo Etching

### Custom

Tailored ceiling solutions

Consultation By Request

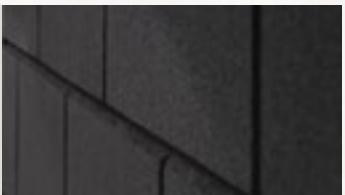

## Wall Fascia

Impact-resistant panels that stand up to scuffs and organize high-contact zones. Improves acoustics, conceals utilities, and provides a canvas for graphics or branding.

### PEPP

Impact-tough acoustic option

Flat | Beveled | Custom Pattern/Logo Etching

### Hexagon PEPP

Geometric acoustic panels

Black | White

### Wood Wool

Textured acoustic finish

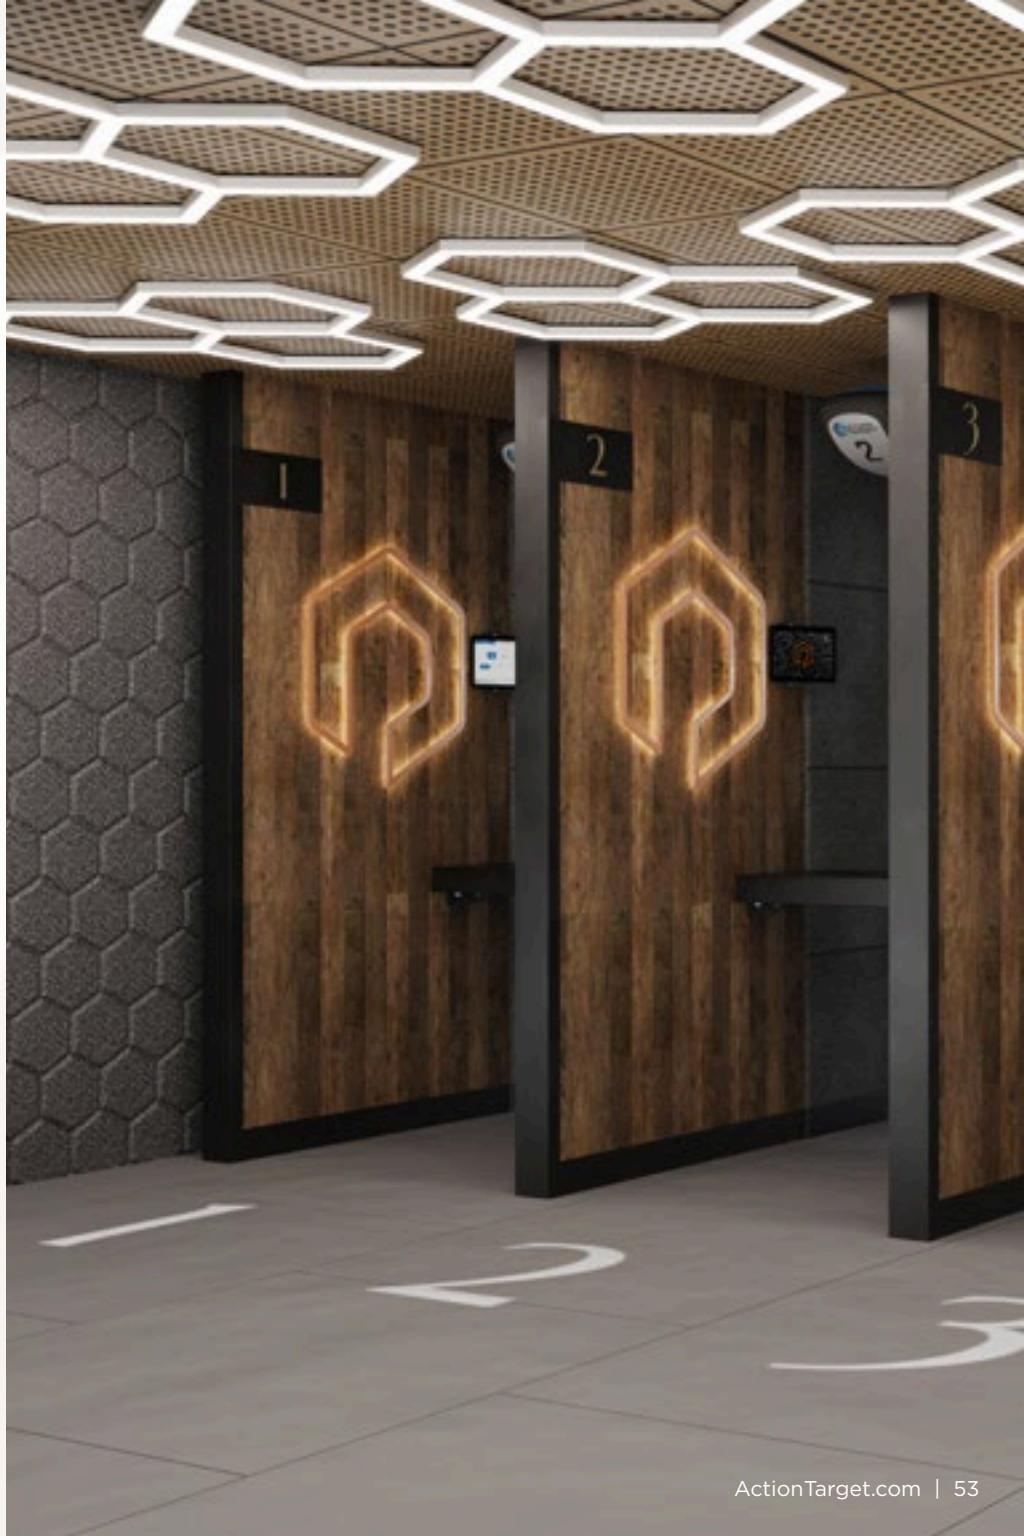

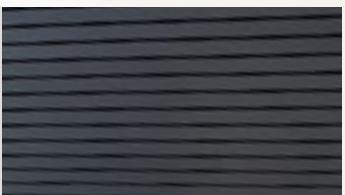

Custom Pattern/Logo Etching | Custom Colors

### Custom

Tailored wall solutions

Consultation By Request

# *Range Facility*

## **Purpose-Built From Entry to Backstop**

Range facility unites the essentials—safety, airflow, containment, and lighting—into a plan that fits your space. Whether it's a single-lane home range or a multi-lane venue, modular options scale to your goals while supporting comfort, performance, and long-term value.

# Safety Baffles

---

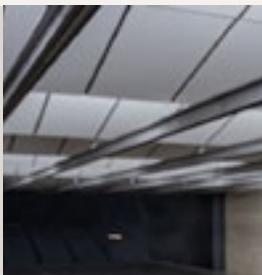

## Ceiling Baffle Configuration

Provides superior ballistic containment, mitigating ricochets and splatter, ensuring maximum range safety while protecting overhead structures, lighting, electrical systems, ventilation, and ceiling structures from bullet damage.

### Fixed Firing Line

Overhead AR500 baffles with a more economical layout that provides coverage from one fixed firing line position.

Optional Lite or Wide-span Configurations

### Tactical

Overhead AR500 baffles provides full coverage from any downrange firing position, allowing shooters to move up and down range safely.

Optional Wide-span Configurations

## Wall Baffle Systems

Installed along the sidewalls, this shooting range wall system captures errant fire and pushes energy downrange into the bullet trap, protecting walls and other infrastructure resulting in a stronger facility integrity.

### CombatShield™

Ballistic wall baffles keep rounds in the range, protect structures, and support 180° training with modular options.

Optional Fascia

### IronShield™ Ballistic Door

Ballistic-rated entry maintains the range envelope while providing controlled, large-scale access and durable, low-maintenance operation.

Optional Fascia

# Ventilation

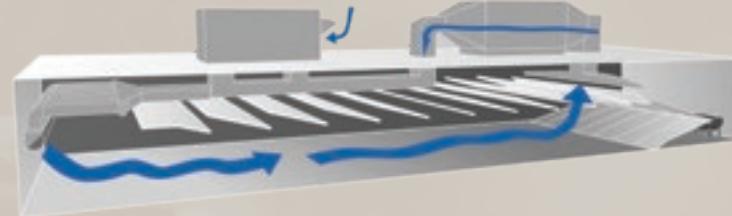

## Vital to Safety and Comfort

Well-engineered range ventilation creates clean, directional airflow from behind the firing line to the traps, capturing lead and combustion byproducts at the source to protect shooters and staff while supporting OSHA, EPA, and NIOSH compliance.

### Recirculation System

Filters and reuses conditioned air to drive steady flow from the line to the traps while capturing contaminants at the source.

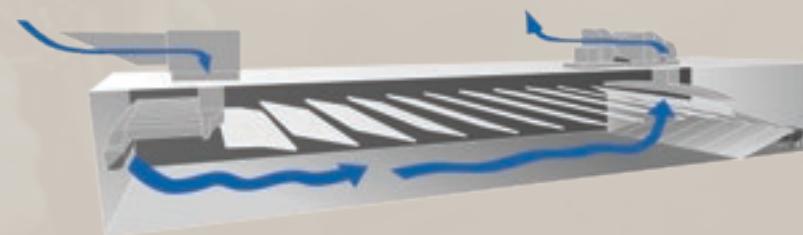

Best for Humid Climates

### Purge System

Pulls 100% outside air, filters contaminants, and exhausts outside for clean, directional flow downrange.

Best for Dry Climates

### Radial Diffuser

Behind-the-line diffuser delivers smooth, laminar airflow for even coverage throughout the range, ensuring shooter safety from lead contaminants.

Silver | Black

# Bullet Traps

## Containment that Performs

Our traps manage energy at impact, capture lead for cleaner operations, and protect your structure and people. Each solution integrates with ventilation and maintenance workflows to support safety, compliance, and long-term value.

### Rubber Berm Trap

Galvanized internal frame holds rubber media to safely capture rounds; optional fire treatment and fin design improve safety and reduce maintenance.

Optional FlameLock™ Fire Retardant

### Total Containment Trap

Open-mouth steel plates feed rounds into a Vortex™ chamber for controlled deceleration, dust collection, and simplified lead recycling.

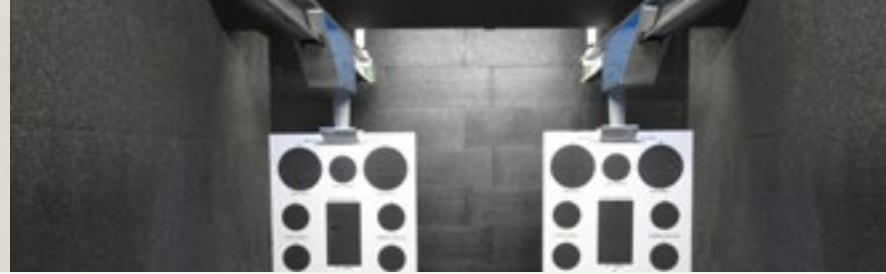

Bullet Collection Systems Available

### Block Wall Trap

Compact, steel-backed trap faced with SureStop™ rubber blocks captures rounds and contains splash with a minimal footprint.

Optional FlameLock™ Fire Retardant

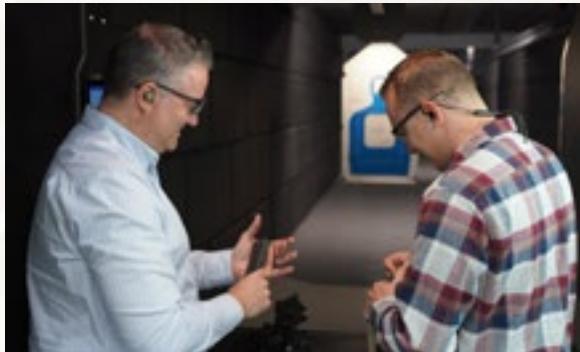

# Lighting

---

## Staging Area

Bright, comfortable light for gearing up and staging firearms while avoiding eye strain.

## Downrange

Illumination in the entire range. Track and baffle placement are considered to reduce shadows.

## Master Control Systems

Create unique scenarios throughout the range. Individual fixtures or zones can be turned on, off, or dimmed.

# Range Services

---

## Recycling & Disposal

Discreet, on-property pickup for spent metals and waste. Receive a 10% credit when applied to your store account.

## Reliable Support

Technicians and reps respond quickly and coordinate services, so you get fast, local support.

## Maintenance

Scheduled maintenance and deep cleanings for traps, stalls, and ventilation keep air quality high and finishes protected.

## Range Supplies

Everything you need to keep your range clean, safe, and ready to run. Targets, filters, cleaning supplies, and more.

## Warranty

Our 3-Year Trusted Partner Warranty includes parts and labor for manufacturing defects with regular maintenance.

# TOTAL CONTAINMENT TRAP™ CONFIGURATIONS

BALLISTIC RATING	CALIBER RATING	MAXIMUM VELOCITY		MAXIMUM ENERGY			
ATI Class 1	Pistol	1,485 fps		1,175 ft/lbs			
ATI Class 2	Rifle*	3,388 fps*		3,600 ft/lbs*			
LEAD COLLECTION	POWER REQUIREMENT	EMPTYING PROCESS	CONTAINER REQUIREMENT	RANGE ANNUAL VOLUME	CONTAINER WEIGHT	FILL LEVEL SENSING	SYSTEM MONITORING
BCS Basic 3	None	Manual	3.5-gal. (standard 3/lane)	<750,000 rounds	≈ 64 lbs (50% full)	Translucent Container	No
BCS Deluxe 20	None	Wheel Base and Crane	20-gal. DOT (standard 2/lane)	All	≈ 500 lbs (80% full)	Sight Window	No
BCS Auto 55	208/240/480V 3 phase**	Powered	55-gal. DOT (1/trap)	All	≈ 1,208 lbs (80% full)	Panel and Computer Interface	Yes
OUTDOOR BOOM	TRAP	APPLICATION	SEISMIC ZONE	WIND LOAD RATING	SNOW LOAD RATING	PAD THICKNESS	
Small Size	3x5	Outdoor/Indoor	Lowest Hazard***	≤ 140 mph (no special regions)	≤ 20 psf @ given elev.	≈ 18 inches	
Medium Size	4x4	Outdoor/Indoor	Lowest Hazard***	≤ 140 mph (no special regions)	≤ 20 psf @ given elev.	≈ 20 inches	
Medium Size	3x5	Outdoor/Indoor	Medium Hazard***	≤ 160 mph (no special regions)	≤ 50 psf @ given elev.	≈ 20 inches	
Large Size	4x4	Outdoor/Indoor	Highest Hazard***	> 140 mph	> 20 psf @ given elev.	≈ 24 inches	
Large Size	3x5	Outdoor/Indoor	Highest Hazard***	> 160 mph	> 50 psf @ given elev.	≈ 24 inches	

\*Not rated for armor-piercing or atypical ammunition. Capable of use with .50 BMG rounds; however, these shorten the life expectancy of trap components and may void warranty. See TCT operations and maintenance manual or check online at ActionTarget.com/TCT for details on .50 BMG use.

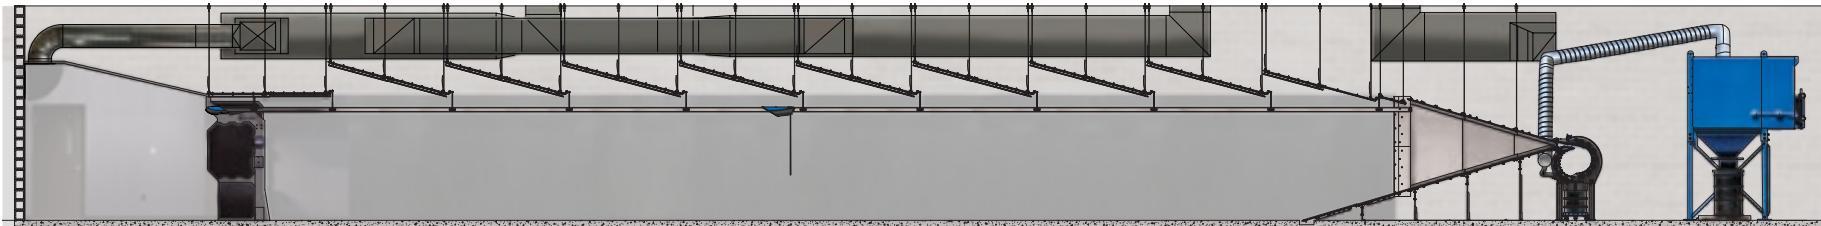

\*\*International power and/or custom single phase options available upon request.

# BULLET COLLECTION SYSTEMS

## BCS Deluxe 20

The BCS Deluxe 20 collects bullets in 20-gallon drums for recycling. The BCS Deluxe 20 is compatible with the 3x5 Total Containment Trap configuration.

### Easy Fill Level Check

The integrated barrel lid includes a sight window for quick and easy identification of drum fill level.

### Straightforward Drum Removal

The drum is sealed to the discharge hopper with a lid clamp that has a quick disconnect toggle clamp. Each drum has a heavy-duty reusable dolly for easy drum maneuvering during change-out.

### Easy Drum Transfer

We offer three types of equipment for transferring full drums to a pallet: 1) barrel hawk, which functions like a pneumatic hand cart; 2) crane, which uses a chain winch to lift and remove drums; and 3) fork lift mount, which mounts to a forklift.

### Reduces Service Frequency

The large drum capacity provides for longer service intervals.

## BCS VOLUME COMPARISON

Based on a 10-lane range and 3 million rounds collected per year.

### DELUXE 20

TWENTY **20** GALLON DRUMS PER RANGE

**320** GALLON RANGE CAPACITY

REPLACE EVERY **73** DAYS

## BCS Basic 3

The Vortex is also available with an economical BCS Basic 3. This system is comprised of 3.5-gallon canisters that attach to the underside of the chamber to collect bullet fragments.

### BASIC 3

THIRTY **3.5** GALLON BUCKETS PER RANGE

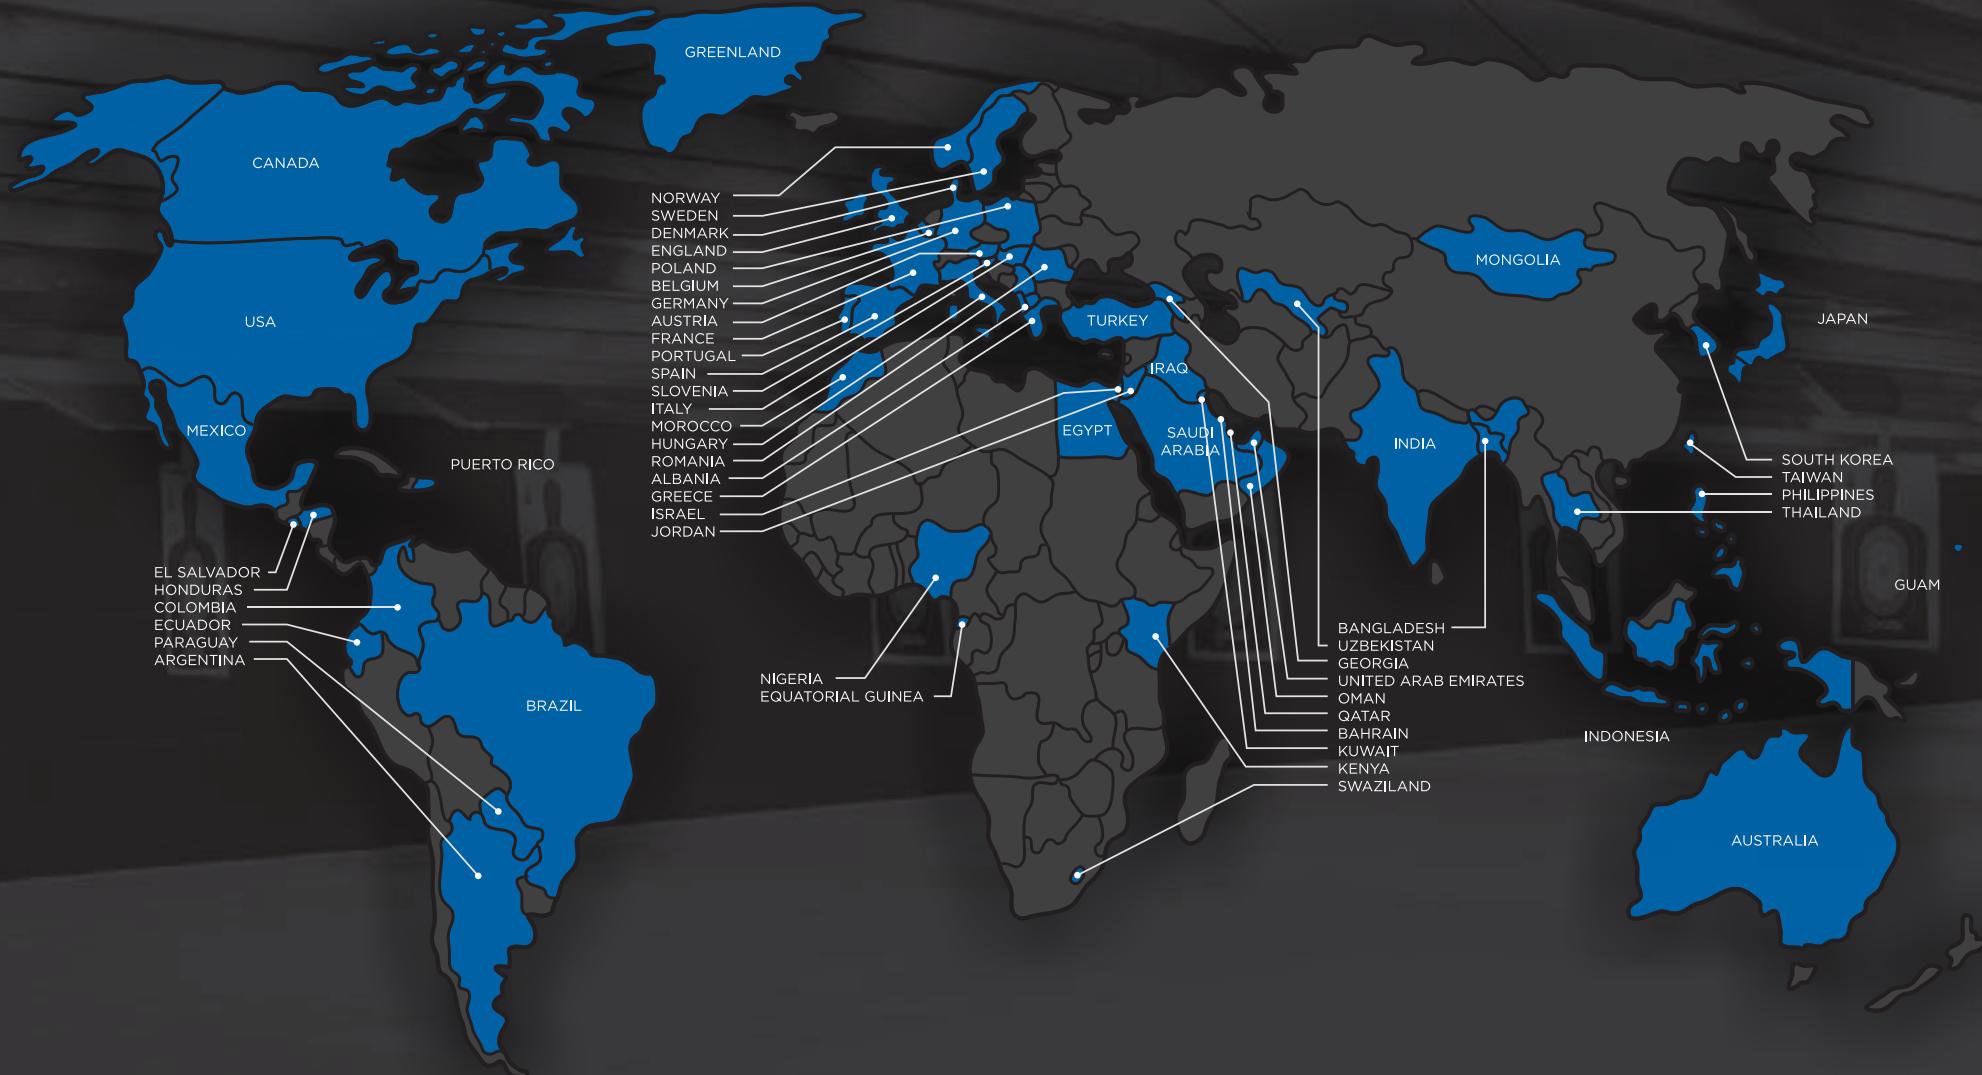

**84** GALLON RANGE CAPACITY

REPLACE EVERY **11** DAYS

Action Target has built thousands of ranges in
