

# BARRACKS 616

INDOOR SHOOTING RANGE  
GRAND RAPIDS, MI

CONTRACT RANGE:  
\$385,000.00 - \$450,000.00

Action Target contracted with Rick and Travis Laufer in early 2013 to design and build Barracks 616, a premier commercial range in Grand Rapids, MI. Their facility includes a 12-lane range split into 2 bays of 4 and 8 lanes. Knowing that it would be important to provide their clients a first class experience, the owners of Barracks 616 selected Action Target's Total Containment Trap, Safety Baffles, solid black stalls for client privacy, and toggle controlled target retrievers for ease of use. Rick and Travis also took steps to make the range as comfortable as possible for customers and employees by installing PEPP sound dampening material to reduce sound reverberation in the range and a Carey's Small Arms Range Ventilation system for clean and climate controlled air. Barracks 616 with its premier equipment, safety conscious design, and air ventilation makes for one of the best commercial shooting ranges in Michigan.

## PROJECT SCOPE

- Total Containment Trap
- Fixed Position Baffle System
- Solid Black Stalls
- Toggle-switch controlled Target Retrievers
- PEPP Sound Abatement Material
